"Glöm olja, gas och sällsynta mineraler. Digitaliseringen gör data till världens mest värdefulla resurs"

SERVICES

PEOPLE

THINGS

"Vi kommer gå från att vara ett energiföretag som jobbar med infrastruktur till att bli ett infraservicebolag"

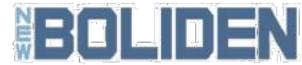

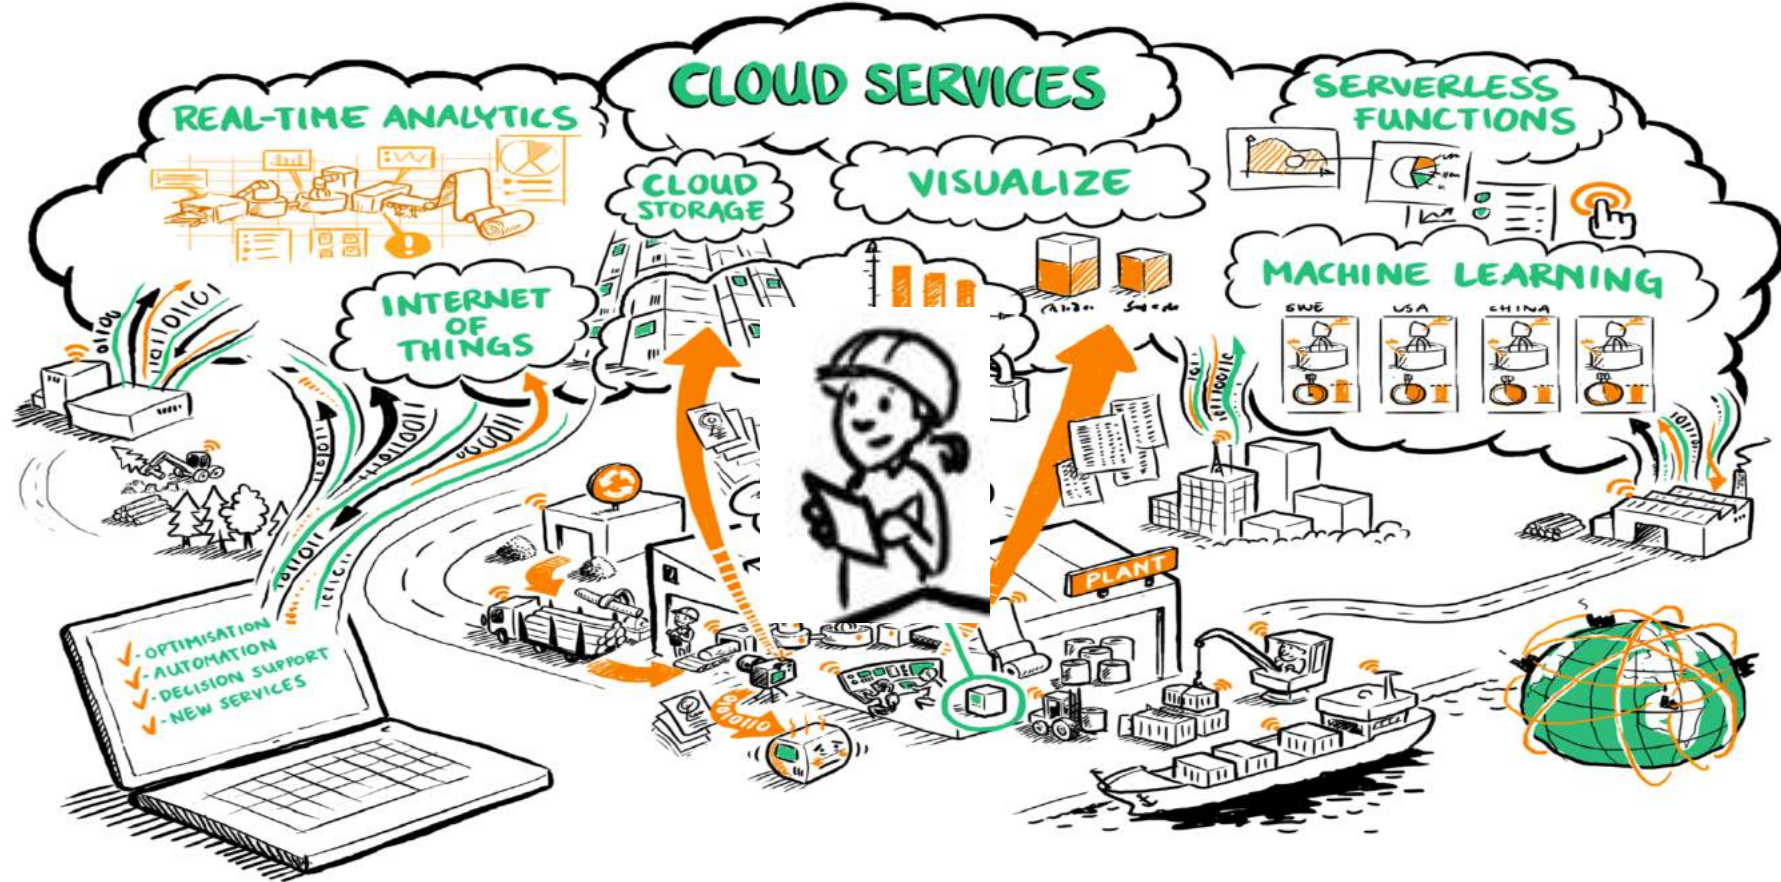

MälarEnergi

A large mining truck is shown in a dark, underground tunnel. The truck is positioned in the center-left of the frame, facing right. It has a large bucket full of dark ore. The tunnel walls are rough and rocky. Two large, yellow pipes run diagonally across the top of the tunnel. The lighting is dramatic, with a bright light source illuminating the truck and the ore, while the rest of the tunnel is in deep shadow.

"Digitalisering handlar om människor"

"Digitalt ekosystem med informationsdelning och samordning av verksamheter. Människan i centrum"

IIoTSP – Industrial Internet of Things Services and People
